

20mm

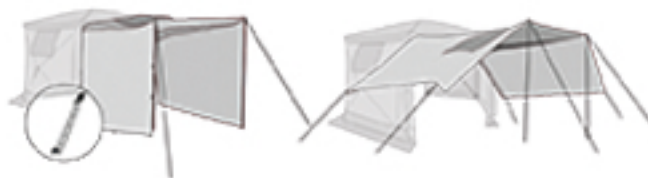

Match to Wild Land Hub Screen House 600

1.
Zip upwards the connector with hub screen house tent from bottom.

2.
Unzip the two expansion flaps on top, and erect the support pole, stake the tie down straps at 45 degree.

3.
Peg down both sides, adjust the guy rope to make it tight, the set up is done.

The tent could be spread out by adjusting the tension of the guy lines.

Match to vehicles:

1.
Fasten the two straps of the tent to the pillows of the rear seats (Picture 1) or to the rear lines (Picture 2)

2.
Erect the support pole, stake the tie down guy ropes at 45 degree.

3.
Zip the tents fully on two sides to tighten the connect part between the tent and the vehicle.

4.
Peg down both sides, adjust the guy rope to make it tight, the set up is done.

The tent could be spread out by adjusting the tension of the guy lines
